

# Dose Cabinet

## All in One Solution

A single unit to meet dispensing and dose preparation requirements in hotlab.

## Compact

Dose Cabinet provides a space efficient work area

## Efficient

The design ensures that the dose is prepared without much movement making it efficient

## Self Shielded

The dose cabinet is fully shielded and doesnot require ideally any additional shielding

Dose Cabinet provides space efficient work area with plenty of storage space. The cabinet comprises of:

1. A Dose Calibrator
2. L Bench
3. Sharps container shield
4. Dose Dispenser with Tungsten Vial Shield for PET (optional for SPECT and Iodine)

The Stainless steel countertop has 0.5" spill proof lip. The lower cabinet has two lockable doors, two top sliding drawers and two bottom sliding drawers.
